

# TRANSPORTING SOIL AND GRAVEL

## 1. Preparation

- a. Dry out wet materials before transporting.
- b. Spray down dusty materials to keep from blowing.
- c. Make sure you know and understand the SWPPP requirements for the site you will be working at.
- d. Determine the location that the truck and other equipment will be cleaned afterwards.
- e. Check vehicle tailgate to make sure they seal and latch properly.

## 2. Process

- a. Use a stabilized construction entrance to access or leave the site where materials are being transported to/from.
- b. Cover truck bed with a secured tarp before transporting.
- c. Follow the SWPPP requirements for the specific site to/from which the materials are being hauled.
- d. Make sure not to overfill materials when loading trucks.

## 3. Clean up

- a. Use sweeper to clean up any materials tracked out on the roads from site.
- b. Wash out truck and other equipment when needed in truck washing bay at public works.
